

The background features a light blue geometric design. It includes three sets of concentric circles in varying shades of blue. Two thin, light blue diagonal lines intersect the page, one running from the top-left towards the center and another from the top-right towards the center. The title 'CARRICULUM VITAE' is positioned on the left side, underlined.

# CARRICULUM VITAE

**Motivated and adaptable IT professional with a strong foundation in full stack development, technical support, and digital systems management.**

## WORK EXPERIENCE

### Software Developer Trainee

TEACH2GIVE – Nyeri

February 2025 – April 2025

- Participated in the development of web-based applications, contributing to both front-end and back-end tasks under supervision.
- Gained hands-on experience with modern development tools, version control (Git), and agile workflows.
- Assisted in debugging, testing, and documenting code to ensure functionality and maintainability.
- Collaborated with the development team to implement user interface features and optimize application performance.
- Engaged in code reviews and knowledge-sharing sessions to improve programming skills and best practices.

### **Computer Technician**

Shell Service King'ong'o – Nyeri

**July 2023 – January 2025**

- Provided technical support for computer systems, hardware, and software across the service station.
- Installed, configured, and maintained workstations, printers, POS terminals, and networking equipment.
- Diagnosed and resolved system errors, network issues, and hardware malfunctions, ensuring minimal downtime.
- Managed software updates, backups, and antivirus systems to ensure data security and performance.
- Assisted in the digital record-keeping and reporting systems to improve operational efficiency.
- Collaborated with service teams to implement tech-based solutions for daily operations and customer service.

### **Store Keeper / Oil Specialist**

Shell Service King'ong'o – Nyeri

**April 2020 – July 2023**

- Oversaw inventory management using digital stock tracking systems, ensuring real-time updates and accurate records.
- Optimized inventory processes by implementing spreadsheet-based logs and barcode scanning tools, reducing waste and improving efficiency.
- Conducted regular audits and generated inventory reports using Excel and internal stock management software.
- Maintained organized, compliant storage environments in line with health and safety standards.
- Coordinated with procurement and service teams to streamline ordering and stock replenishment through digital systems.
